

## **Two postdoctoral positions on extragalactic accreting binaries and stellar populations at the University of Crete (Greece).**

Applications are invited for two postdoctoral positions on extragalactic accreting binaries and stellar populations, funded by the ERC program A-BINGOS (Accreting Binaries in Nearby Galaxies: Observations and Simulations).

Applicants with experience in the analysis of X-ray data (Chandra, XMM-Newton), and/or optical, UV, and IR data from the Hubble Space Telescope as well as other observatories (e.g GALEX, Spitzer) are particularly encouraged to apply. Experience in the fields of X-ray binaries, and/or extragalactic stellar populations is a plus.

The successful candidates are expected to be highly motivated and will work under the supervision of Dr. A. Zezas at the University of Crete / Foundation for Research and Technology, Hellas (Heraklion, Greece). In addition to carrying out research, the successful candidates will participate in proposals for new observations, preparing publications, and assisting undergraduate and graduate students in the group.

### **Position information**

The initial appointment will be for two years with the possibility of extension for one more year depending on satisfactory performance.

A starting date in June 2014 is anticipated, but a different starting date can be negotiated.

The net monthly salary is in the 1500-1800 Euro range depending on experience.

### **Required Qualifications**

A PhD degree in physics or astrophysics.

Experience in the analysis of X-ray and/or multi-wavelength data.

### **Application Procedure**

Applications should include a curriculum vitae, publication record, a brief statement of current and future research interests (1-2 pages in PDF format), and 3 letters of reference, sent directly by e-mail to Dr. A. Zezas ([azezas@physics.uoc.gr](mailto:azezas@physics.uoc.gr)). Consideration of applications will begin on **April 15th, 2014** and will continue until the position is filled.

The Foundation for Research and Technology is an equal opportunities employer.

For any additional information please contact Dr. A. Zezas (e-mail: [azezas@physics.uoc.gr](mailto:azezas@physics.uoc.gr); tel.: +30-2810-394212).
